

# JUTLAND JOLLIES

This 12th issue of JJ is dedicated to my wife who just bought me a dozen Carling Black Label beer. Actually Black Label is a superior brew to Red Cap, which is itself a superior brew. A few people have asked how Red Cap compares with some of the more popular American flavours. Well, to be honest with you, I have only sampled a few of them and I found Rolling Rock to be about the best. I would rank it a close second to a bottle of Coke that has been sitting in the sun for a week with the cap off.

Subscriptions to this great magazine are 10 issues for one dollar, back issues are 10¢ each and are a real bargain at that. Your editors, gamesmasters and error-correctors are:

As a result of the above moves, the Italian Fleet Ionian Sea is dislodged and must retreat to one of the following locations: Tunis, Tyrr. Sea, Naples, Adr or GREECE. In the event that Italy retreats the fleet to Greece, she will be able to build a unit and Austria will have to remove a unit on the winter turn. In order not to delay the game, I am asking the Italian player to send in along with his retreat, his build if he elects to retreat to Greece, and the Austrian player to send in a removal in the event that he loses Greece. The following supply center chart reflects the situation at the end of the fall turn, minus the fall retreats.

JJ # 1 Press Releases:

ROME (4 Sept) Nearly all supplies of Canadian beer remaining in Italy have been collected and are now being loaded onto specially padded transports of the vast Italian Merchant fleet. The fleet, reportedly heavily escorted, has a secret destination. Its commander is the noble Admiral Scuttleria, still remembered for ramming the Injuria into an English beer barge in 1889.

NEW NAPLES, NOVA SCOTIA (10 Sept.) It has just been announced that a second colony, New Rome, has been established. Casualties officially number about 837 killed and 412 wounded, but the foothold is now secure. Armed patrols into the hitherto unexplored interior of Nova Scotia reveal huge clouds of vapor paludis, while the Italian beer export, Mala Aria, has been reported to be effective in interrogations of Canadian Rangers. No report of enemy casualties are available yet.

RUSSIA to GERMANY: "Let me help you win this game."

An ALLIANCE can be defined as a political union of two thieves who have their hands so deeply inserted in each other's pocket that they cannot separately plunder a third.

PEACE, in international affairs is a period of cheating between two wars.

DIPLOMACY is the patriotic art of lying for one's country.

The staff of JJ (i.e. Derek, myself and my wife) are planning to visit the Youngstown-Girard area of the province of Ohio on the weekend of the 18th, 19th & 20th of May, if I have a car by then.

FALL 1903 MOVES ARE DUE ON SATURDAY 27 APRIL, 1968

---

PRESS RELEASES:

LONDON: The British Navy, at the request of the exilled government of Denmark, is moving to liberate the country from the last remains of German tyranny. The king and government of Denmark will be restored as soon as the country is made safe for them by the British Marines.

VERSAILLES, MAY 4, 1903. The French Government condemns the invasion of Austria-Hungary and France by Italy. The government will direct all its energies to the elimination of this traitorous nation to the exclusion, if necessary, of all others. But fear not, loyal Frenchmen! The royal Government marches on, does not flag or fail, does not cry for quarter, does not give up Frenchmens' lives in vain. Vive le Roi, vive les francais, VIVE LA FRANCE!!!

ROME: Italy has no quarrel with the French or Austrian peoples, its your countries we want, not you. So if you'd all be willing to leave we would be grateful. By the way Austria, since when we entered your country we found out you had already exterminated our brother wops, there is now no reason for us being there, since you beat us to it. So we are willing to make peace, also, since the newspapers revealed to the people that people got killed in wars there has been violent protesting. Thank God our soldiers run when they are shot at and in looting the countryside only rape little old ladies, or our casualties would be much heavier than 2 wounded and 1 killed.

VIENNA: Italy, I'm beginning to get annoyed at this. I have done nothing to antagonize you and yet you persist in this ridiculous war. Unless you cease and desist now I will be forced to take action, and that includes pulling such nasty tricks as taking Naples if I got into the Ionian this time.

DRESDEN: Forward units of the Third White Army reached the city today after light fighting with the German Wine Makers' Guild. News spread through the city that Italian troops operating out of the Tyrolian Alps had taken the Bavarian capital of Munich. Hearing the news of German defeats in Bavaria, Silesia, Belgium, and Denmark local troops of Germany's Home Army came out of hiding and surrendered in full battalions to the handfull of Russian soldiers occupying the industrial center of Dresden. This is the black day in German military history.

LONDON: The war department today announced that the British First Army has started its annual spring maneuvers in South-western Britian. The maneuvers will be over in a couple of months, at which time the army will probably be shipped off to Canada to aid their hard pressed forces against the American aggressor. The war department was also happy to announce that Japanese marines had landed on the U.S. west coast and were advancing inland. Soon the dirty Bheer drinking American dogs will be finished.

MONTREAL (April 19, 1903): The U.S. First Army, after thawing out after the winter in Suglug, has returned to civilized areas (or are they civilized?) minus about 20,000 men lost from frostbite. We have found to our horror that the St. Lawrence has flooded and washed away the bridges at Montreal. To return to our Fair America, therefore, we have decided to try a pincer movement on the enemy bheer-warriors assaulting Detroit. Our First and Fifth Armies will wipe out the enemy.... ferreting them from their tunnels, their jungles, their villages..... what? There are no jungles in Ontario? Sorry, I just got carried away for a minute.

THE MOUTH OF THE RIVER MacKENZIE (Feb.3): A new American offensive from Alaska has penetrated the weak Canadian defenses in the Yukon. GOLD!! Gold!! We're going to take it all back to Washington so France can have it after us. That's the way we keep up our balance of payments.

VANCOUVER (March 19): A U.S. force of 4,600 men has penetrated to this island and is holding out desperately against Canadian counteroffensives. About 3 to 4 enemy divisions are beseiging our perimiter. However, we believe we can hold out if the Wright Brothers airlift supplies to our garrison as soon as they invent the airplane.

PANAMA CITY (April 21): The U.S. imperialists have been thrown out of Panama. Panama hereby proclaims an independent republic. We are also taking over the half-completed canal and recruiting 500 thousand additional laborers to speed up its construction. It will be ready, according to our current schedule, for use by next summer.

SPRING 1903 MOVES ARE DUE ON SATURDAY 27 APRIL, 1968

---

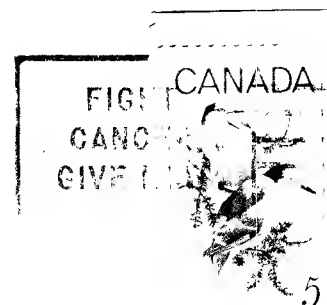

Press Releases:

LONDON: Mr. Burke said today: "He declared he could not caution the House too much against what had passed in France, but he had not called that country a republic: no, it was an anomaly in government; he knew not by what name to call it . . . it was, he added, "A shapeless monster born of hell and chaos."

UKOMAASIA: Cheering crowds meet the liberating Ukomaasian troops as they marched into Bucharest. Rumania, after being a slave to Russo-Turkish Imperialism for two years, has been freed.
